Elizabeth Blount, Director  
Janie Phelps, Director  
Lovely Bell, Director

## President's Message

Greetings and compliments to you all. Greetings because it is with great anticipation and much excitement, as your new president, that I am looking forward to the upcoming year. Compliments because each of you contribute immeasurably to the organizations you represent and the communities in which you work. Without you the communities in which you work could not thrive and the association of the North Carolina Association of Zoning Officials would cease to exist.

As a Board Member it has been an honor and a privilege to serve "The Association" and its members over the past several years. As president, it is my responsibility to ensure that service and educational opportunities are provided in such a way that honors the leadership of the past as well as lead us to higher levels of professionalism.

I have seen The Association grow in terms of its scope and size over the years. Over the next year we will experience more growth, more challenges, and more successes but our growth and success depend on you. The Board of Directors is filled with talented people who volunteer their time and talent to The Association. New ideas and strategies will be implemented that will help make the North Carolina Association of Zoning Officials the preeminent member-led organization in North Carolina. Be on the look-out for more information on the website coming soon.

We are always on the lookout for volunteers and fresh ideas. If you are interested in volunteering, please contact us as we would love to hear from you. If you have ideas that you believe would add positively to the Workshop/Conference experience, please contact any one of your Board Members. If you have issues or complaints, please contact me.

Finally, we look forward to bringing you conferences and workshops, filled with interesting and informative subject matter that broadens your thought and elevates your vision.

Warm Regards,

Reginald Buie, MPA, CZO  
NCAZO President
